Question 3 : multiply two numbers

Write a program in C multiply two numbers.

Code:

```
1 #include <stdio.h>
2
3 int main() {
4     int a, b, multiply;
5     printf ("16,10: ");
6     scanf ("%d %d", &a, &b);
7     multiply = 16 * 10;
8     printf ("mmultiply = %d/n", multiply);
9     return 0;
10 }
```
